

Gifted Program

To the extent possible within the resources available, all gifted and talented students shall have the opportunity to participate in appropriate educational programs. The term “gifted and talented” means children of outstanding abilities who are capable of high performance and require differentiated educational programs beyond those normally offered in public schools in order to fully achieve their potential contribution to society and self.

The Superintendent/designee shall establish procedures consistent with state guidelines for nominating, assessing and selecting children of demonstrated achievement, or potential ability in terms of general intellectual ability and academic aptitude.
